# WHOLESALE PRICE LIST

## SCHELL'S *Quality Seeds*

For large buyers only - - such as  
Market Gardeners and Florists

**Schell's Quality Seeds enjoy an enviable reputation - - They are preferred by successful growers everywhere.**

For nearly a half century our seeds have been well known and increasing in demand every year because of the outstanding crops they produce.

This book is meant for you who require larger quantities of seeds and are entitled to wholesale prices.

For your guidance you will receive a copy of our 1959 general catalog showing a great many of the most popular varieties of Vegetables and Flowers in their natural colors. Should you desire an extra copy just let us know.

Read that book to get descriptions but order at the Wholesale prices printed here. All quotations cover shipping costs—everything will come to you (in U.S.A.) prepaid. Please give us the name of your nearest station or tell us where Motor Truck delivery can be made to save time.

Send a check or money order covering the cost of your entire order, unless you have an account with us. To those who have accounts our terms are net July 1st or 5% discount for cash in 10 days.

**New Customers** wishing to open an account for seeds should furnish two (2) trade references—names of business firms who have extended credit to you recently. If you prefer to have your seeds shipped C.O.D. send 25% of the total cost with your order. Post office will add an extra fee for collection on delivery. Orders are filled promptly but you can avoid the possibility of disappointment by ordering early. Send your entire order to Schell's this year—You know how important it is to plant good seeds.

---

"We warrant that the seeds, bulbs, and plants we sell are, at the time of delivery, as described on the container within recognized tolerances; but we limit our liability on this warranty to the amount of the purchase price of such seeds, bulbs and plants. We give no other or further warranty, express or implied."—WALTER S. SCHELL, Inc.

## BIRD VITA-BANDS NUTRIENT TREATED

VITA-BAND 10 for short growing periods. Will usually contain root growth up to approximately 8 to 10 weeks. Nutrient-treated with quickly available plant food . . . your judgment determines need for additional feeding. Especially good for annuals and vegetables.

VITA-BAND D contains root growth until grower chooses to let root through Band. Only quick, light pressure is needed to crack the Band. Do not remove Vita-Band D, for it disintegrates in the soil, permitting free growth of roots.

Size in inches	Price per 2000
